## Experience

FarSuperior Partners, LLC  
Chairman  
January 2011 - Present (15 years 3 months)  
Phoenix Arizona

2024 marks a pivotal moment for our community as we face financial uncertainties, ecosystem shifts, and challenges of faith. Despite these hurdles,

we remain steadfast in our mission to thrive and serve each other in 2025 and beyond. Together, we are building a nationally recognized network of like-minded individuals, paying it forward, and working to create lasting impact in the lives of millions.

While eliminating life-threatening diseases such as Long COVID, cancer, diabetes, and heart disease from the world may seem impossible, I believe that every life saved is a victory. Since discovering a powerful formula in 2017, we've been on a mission to bring hope and healing. Our protocols, tested through the pandemic, have helped reverse these illnesses in countless people. If this mission resonates with you, I invite you to join us—let's make history together and bring health to those who need it most. God bless.

FarSuperior Partners, LLC, launched in 1999, began as a local business directory and quickly became a competitor in the marketplace. By 2019, we expanded into 1,520 communities across North America, helping hundreds of small businesses, entrepreneurs, inventors, and patent holders grow and bring their innovative products to market. Now, as we move into 2025, our privacy-based search engine is live and ready to reshape the future of the internet—integrating AI and local business owners to create something truly groundbreaking.

If you're ready to make a change, connect with us. Together, we can build a thriving future.

Together we can make a difference!

The Wayne Foundation first operated as a donor advised foundation with millions each year being directly contributed by those consumers we served to worthwhile charities. For 2013, our goal under our new 501(c)3 status is to

directly manage donations into the 8 figures plus for charities and humanitarian efforts around the world, but first at HOME in the USA. There is nothing more important than our children, their education, health and welfare. Once again... Remember, Together we CAN make a difference!

### LostMoney.com

Founder

January 1996 - Present (30 years 3 months)

As we move into 2025, LostMoney continues its mission to support American consumers in recovering their unclaimed property. Since our founding, we have successfully helped recover over \$3 billion in unclaimed property, transforming lives and raising millions for charities each year through our pay-it-forward philosophy.

We charge nothing for our services, asking only that those we assist consider contributing to our non-profits or co-op community if they are able, using the lost money we help them recover. With over \$1 trillion in unclaimed property still available in the United States, and 7 out of 10 American families having claims averaging over \$1,200 each, we are more dedicated than ever to providing the best support and resources to those in need.

Our advocates work closely with consumers to answer questions, guide them through the claims process, and make an impact by supporting over 75 charitable organizations. We aim to expand this success even further in 2025 by continuing to recover unclaimed property and contribute to meaningful causes across the nation.

Join our team of advocates today and help us in our mission to empower American families and give back through our unique pay-it-forward approach. Discover your lost money today at [www.LostMoney.com](http://www.LostMoney.com)
